

CPICRF™ Paints & Anodizing

High Performance Architectural Coatings

Unique combination of Kynar™, Trinar®, or Hylar™ fluoropolymer* and TGIC Polyester resins.

CPI DAYLIGHTING ALUMINUM FINISHES

CPI Daylighting offers a wide range of aluminum finishes from CPICRF™ - Paint finishes to Anodizing finishes.

Mill finish - Unfinished Aluminum. Aluminum will have exposed die lines and scratches.

CPI Corrosion Resistant Finish Standard (CPICRF™ - STANDARD) is CPI Daylighting's standard high performance architectural TGIC Polyester resin **powder coating**. It is environmentally friendly because it **does not omit VOC gases** to the atmosphere. It is the most economic paint CPI Daylighting can offer. It meets AAMA 2603 with a large range of standard colors to choose from. It comes with a 1 year standard warranty with an option for a 5 year extended warranty.

CPI Corrosion Resistant Finish Premium (CPICRF™ - PREMIUM) is CPI Daylighting's premium high performance architectural polymer resin **powder coating**. It is environmentally friendly because it **does not omit VOC gases** to the atmosphere. It meets AAMA 2604 with a large range of standard colors to choose from. It comes with a 10 year standard warranty.

CPI Corrosion Resistant Finish Premium Plus (CPICRF™ - PREMIUM PLUS) is CPI Daylighting's premium plus high performance architectural 70% PVDF base resin wet paint. It meets AAMA 2605 with a large range of standard colors to choose from. It comes with a 10 year standard warranty with an option for a 20 year extended warranty.

CPI Corrosion Resistant Finish Exotic or Metallic (CPICRF™ - EXOTIC METALIC). Same performance as **CPI 70% PVDF base resin wet paint**. It comes with a 10 year standard warranty only.

CPI Anodize Finishes. CPI Daylighting offers Clear Anodize, Bronze Anodize and Black Anodize Finishes. The Anodized finish comes with a 1 year standard warranty with an option for a 5 year extended warranty. Bronze and Black anodize can be matched with all types of CPICRF paints.
