

Metal Framed Skylights

Innovative designs for commercial and residential applications

About Kingspan Light + Air

Through its acquisition of Bristolite and Skyco Skylights, Kingspan Light + Air brings together more than 50 years of experience with monumental skylights and glazing technology. Our custom metal-framed skylight department provides complete design, engineering, fabrication and installation capabilities, ensuring quality and accuracy. Our team will assist you through each phase of a project, including consulting on the most energy efficient design, cost-effective systems, and choosing the highest performing glazing materials, while maintaining the desired design aesthetics.

Kingspan Light + Air offers a wide array of configurations to satisfy our customers' needs. Our framing systems feature architectural grade aluminum alloys, engineered to meet the most demanding structural loading requirements. Our staff of custom skylight designers can assist in creating a solution to help meet the local codes and requirements.

Visit our website for structural load charts, custom designs and details, specifications, and additional glazing information.
